

HEAL Pathway for Scholarly Project

October 3, 2024

The HEAL affiliate student will (in red are the requirements specific to the HEAL pathway):

- Complete one semester at level 1.
- Complete two semesters* at level 2 while conducting research with a HEAL affiliated faculty/mentor.
- Submit a proposal for their Scholarly Project through the JMHC Scholarly Project website.
 - Follow submission deadlines set by JMHC – October 1, February 1.
 - Word file with proposal prompts can be found here

[Research Project Proposal Prompts.docx \(live.com\)](#)

- Select HEAL as your project's affiliation (see prompt at the bottom of the screen shot below). You cannot see that in the Word file above, but it will appear on your submission screen.

John Martinson Honors College

Scholarly Project Proposal

Scholarly Project Supervisor Information

Name of Faculty Supervisor or Industry Professional:

Supervisor Title:

Supervisor Email Address:

If you are working with a direct mentor other than the project supervisor listed above, please include their name and email address here. For example, the overall supervisor listed above may be the principal investigator (PI) for a lab whereas your direct mentor may be a graduate student working in that lab.

This project is affiliated with the Health Ambassadors with the LRPRC (HEAL) Research Generator.

- Internal LPRC/Lilly presentation or poster will be considered among the options for disseminating your research.
- The proposal is to be approved by the HEAL affiliated faculty/mentor working with the student.
- Submit a project verification upon project completion through the JMHC Scholarly Project website.
 - Internal LPRC/Lilly presentation/poster will be considered among the project presentation venues.
 - The verification is to be signed off by the HEAL affiliated faculty/mentor working with the student.

*An exception of one semester will be considered for students who clearly showed accomplishment of all required learning outcomes during that period (outcomes listed in the Word file linked above).
